1 goat by registration permit only;  
the taking of nannies with kids is  
prohibited.

Sept. 1- Sept. 6

...

All other goat hunting regulations in Unit 14 remain unchanged and are not affected by this emergency order.

Cora Campbell  
Commissioner

By delegation to:

\_\_\_\_\_  
Jessy Coltrane  
Anchorage Area Wildlife Biologist

**JUSTIFICATION:**

Goat surveys were conducted in the Lake George area in summer 2013 with 415 goats counted. To ensure meeting the population objective of at least 500 goats in GMU 14C that will sustain an annual harvest of 25 goats, comprising at least 60% males, harvest from this area should not exceed 20 goat units. The Lake George area is managed with separate registration hunts for resident and non-resident hunters. Seven of the total goat units are allotted for non-residents holding permit RG882. Total goat units are calculated using one unit for billies and two units for nannies. Currently, there have been 6 goat units (0 nannies and 6 billies) harvested by non-resident hunters from the Lake George drainage, and there are hunters currently in the field. To ensure that the quota for RG882 is not exceeded, this hunt will close at 11:59 pm on 6 September 2013.
